We are continuing to seek out interested members for Student Liaison and Newsletter as well as other vacant positions. We continue to work on strategies on how to facilitate this, and hope to have some success in the future to share.

1. Our spring Educational Meeting was held in April 2011. It was a huge success with 70 nurses attending. We brought in an international speaker (Barbara Bancroft). The topic was *Geriatric Nursing and Fresh Approach*.
2. Executive meetings were held monthly: January, February, March, April, 2011
3. One of our goals for the coming year is to continue to build partnerships which will provide us with a greater profile in the nursing community, and more connection.
4. Treasurer's Report: We are financially viable at this time.

Membership remains at 151, which includes 18 free students.

Respectfully submitted,
Linda Haley, President
